FREELANCE PROJECTS

Grocery Website

The tools used on this website are gulp to automate task in the Project, JavaScript to give the slide effect on the main page and use the hamburguer menú. Sass to give webpage design and responsive design. You can see more about this Project on my [GitHub Profile](#)

Rok & EDM Festival

The project consisted of creating a page where information about a concert is displayed. Gulp was used to automate the tasks. JavaScript was used to load the list of images and Sass for the page layout.
